Dear Harold, 2/8/00

I just finished writing to Mrs. Pepper and offered her a copy of the evidentiary hearing transcript. It will be no problem for me to provide her a copy since I had one made in January for my students to use. Also, Clay O. sent me a CD-Rom which included Whoring. I believe I can make a computer disk of it and send it if she does not have it.

Currently, I am reading Pepper's book, Orders to Kill. I am about half way through and it is amazing how many people have been implicated in some way. It also is a very sloppily written book with hardly any source notes.

We are still hoping to make it up to Frederick in a few weeks. The most likely time now would be around the beginning of March. We will let you know.

Best,

Jerry
